

Summer 2011 Applied Archaeology Field School

Objective: To deliver modern, useful skills in archaeology and anthropology that will give Kwantlen students a competitive edge when applying for CRM jobs.

Location: Five weeks in the Fraser Canyon near Boston Bar on an excavation and conducting survey. Five weeks at the Cloverdale campus conducting analysis, lab work, mapping, reporting, and course work.

Courses: ANTH 3361 (6 Credits), ANTH 3301 (3 Credits) and ANTH 3340 (3 Credits). Co-requisites.

Dates: May 2011 until August 12, 2011.

Cost: Regular tuition plus \$850 in fees.

Pre-requisites: ANTH 1300 plus 30 credits.

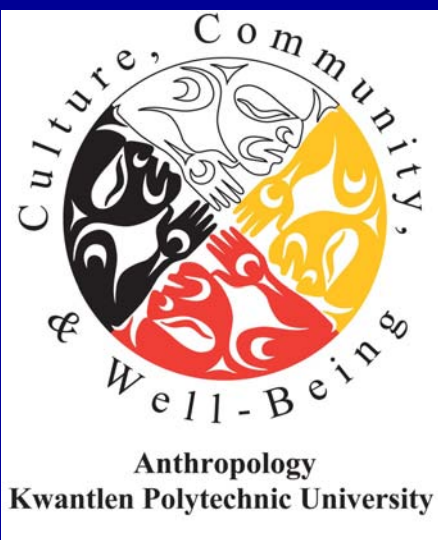

Contact the course instructor, Brian Pegg at brian.pegg@kwantlen.ca

CMT Survey in the South Ainslie project area. Kwantlen student Munisha Kailley records metric data from a western redcedar that has been bark-stripped by Nlaka'pamux people approximately 150 years ago.

Excavation of a mid-1800s mat lodge. Research objectives for the project are to develop detailed culture history for the poorly-understood post-contact period in the Fraser Canyon.
