SENATE

MEETING DATE: *January 30, 2012*

AGENDA #: *3*

PREPARED BY: *Kerry Thompson*

Issue: **Approval of the Minutes of the December 12, 2011 Regular Senate meeting.**

For approval: **THAT Senate approve the Minutes of the December 12, 2011 Regular Senate meeting.**

Present

Androsiuk, Mary	Hoogbruin, Amanda	Petrillo, Larissa
Au, Jennifer	Hughes, Kenneth	Pikios, Christina
Bains, Harpreet	Kozak, Romy	Scanlan, Lori
Coren, Art	Lavack, Anne	Stadnyk, Pamela
Crowe, Christine	MacDonald, Cathy	Rankin, Graham
Cserepes, Dana (Vice Chair)	McKendry, John (Chair)	Royal, Wendy
Cunnin, Betty	Michaels, Kari	Tebb, Wayne
Davis, Bob	Mumford, Robert	Wade, Tally
Deisman, Wade (Vice Chair)	Pearce, Nikki	Wood, Robert
Fung, Maggie	Penhorwood, Jan	

Guest

Gord Schoberg

University Secretariat

Klassen, Sandi
Thompson, Kerry

Regrets

Adamoski, Robert	Girodat, Christopher
Ash, Kristan	Guirguis, Mazen
Bubber, Arvinder	Hensley, Robert
Freeman, Tru	Kampschuur, Marc

1. Call to order

The meeting was called to order at 4:08pm.

2. Confirmation of Agenda

**Moved by Wendy Royal, seconded by Bob Davis THAT the agenda be confirmed as presented.
MOTION CARRIED**

3. Approval of Minutes (November 28, 2011)

**Moved by Art Coren, seconded by Jennifer Au THAT the minutes of the November 28, 2011 Senate meeting be approved as presented.
MOTION CARRIED**

4. Business Arising from the Minutes

No business to report.

5. Chair's Report

The Chair introduced Gord Schoberg, Chair, Board of Governors, and Chair of the Presidential Search Advisory Committee (PSAC). Mr. Schoberg reported that a decision was made by PSAC at the December 2, 2011 meeting to adjust the search process schedule. This is due to a potential revision of the position by the ministry. An approximate 6 week delay is anticipated and will not affect current candidates. PSAC is hopeful that the original deadline for completing the search will remain as targeted for June or July 2012. The ministry has been made aware that the timing of their decision has implications on the presidential search timelines.

6. New Faculty Update

Report on the new Faculty was presented, including actions taken to date. A web site will be available early in 2012. The timeline for the implementation of the new Faculty may be revised as necessary.

7. Board Senate Task Force on Bicameral Governance (No Report)

8. Senate Executive Committee (No Report)

9. Senate Standing Committee on the University Budget (No Report)

The committee is in the process of hearing presentations from deans and service areas regarding budget requests.

10. Senate Governance Committee

10.1 Senate Standing Committee Membership/Mandate Review

In consultation with the members of senate standing committees, a review of committee mandates and memberships has been completed. It was noted that at the inception of Senate in 2008, the mandate and membership of already established committees was not altered significantly.

Principle revisions include streamlined wording, timing for election of members, time periods for service, minimum number of Senators per committee and the addition of the Vice Chair of Senate as ex-officio to all standing committees. The Senate Standing Committee on Policy Articulation has decided that the name will change to the Senate Standing Committee on Policy Review.

It was agreed that all standing committee membership/mandates should contain a set of standard operating principles.

Moved by Ken Hughes, seconded by Cathy MacDonald THAT Senate approve the revised memberships and mandates for the Senate Standing Committees as follows:

Executive	Policy Articulation
Governance	Program Review
Nominating	Tributes
Curriculum	University Budget
Library	

Moved by Bob Davis seconded by Robert Wood THAT Senate defer voting on the mandate and membership to the next Senate meeting, with the exception of the Senate Standing Committee on Tributes. **MOTION CARRIED**

Moved by Dana Cserepes, seconded by Art Coren that Senate approve the revised mandate and membership of the Senate Standing Committee on Tributes. **MOTION CARRIED**

ACTION: Senators are asked to provide feedback by email to the Vice Chair.

ACTION: The Vice Chair will incorporate feedback and guiding principles into each of the standing committee mandates and memberships for review at the individual standing committees, and the item will return to Senate in January 2012.

ACTION: The Chair of the Senate Standing Committee on Governance will notify Senators of the date for the next Governance meeting.

10.2 – Election for New Senators

Senate discussed the impact the dissolution of the Faculties of Humanities and Social Sciences and the creation of a new Faculty will have on the upcoming Senate elections for positions with terms ending on August 31, 2011. Currently there are 4 positions which will become 2.

Concern over the loss of 2 Senate positions due to the creation of a new Faculty was raised. Noted that Senate positions represent the university as a whole, and are not specific to a given Faculty.

10. Senate Nominating Committee

Moved by Mary Androsiuk, seconded by Dana Cserepes THAT Senate approve the following as members of Senate Standing Committees:

Senate Standing Committee on Tributes – Amandah Hoogbruin, Faculty of Community and Health Studies

Task Force on Academic Rank & Advancement – Dorothy Barenscoth, Faculty of Humanities
MOTION CARRIED

12. Senate Standing Committee on Academic Planning and Priorities

Wade Deisman, Chair SSCAPP distributed a written report at the meeting.

13. Senate Standing Committee on Curriculum

13.1 Program Revision: Bachelor of Design in Product Design

Moved by Dana Cserepes, seconded by Ken Hughes THAT Senate approve the revision to the Bachelor of Design in Product Design, Year 1. **MOTION CARRIED**

13.2 Access for People with Disabilities Variance Extension

Moved by Dana Cserepes, seconded by Ken Hughes THAT Senate approve the extension to the curriculum variance for the Access Program for People with Disabilities.

MOTION CARRIED

14. Senate Standing Committee on the Library

It was noted that the library has had issues with students conducting research, which can potentially harass students using the library for study purposes. There is now a policy in place for conducting research in the library.

15. Senate Standing Committee on Policy Articulation

15.1 Academic Schedule 2012/2013

Senate reviewed 2 options presented for the 2012/2013 academic schedule. A new statutory holiday (BC Family Day) will be introduced in February 2013 and the implications on the reading break for Spring semester were discussed.

Version 1 of the schedule would involve a holiday Monday, followed by 2 days of classes, followed by 2 days of reading break. Version 2 would allow for a straight 5 day break (including the weekend and the new statutory holiday falling on the subsequent Monday).

Moved by Bob Second Wendy Royal THAT Senate approve Version 2 of the Academic Schedule.

MOTION CARRIED

16. Senate Standing Committee on Tributes (No Report)

17. Senate Standing Committee on Program Review

Ken Hughes, Chair SSCPR distributed a written report at the meeting.

18. Approval of Graduates

Moved by Dana Cserepes, seconded by Wayne Tebb THAT Senate approve the graduates to December 12, 2011.

MOTION CARRIED

19. Items for Discussion

The School of Business is holding its annual holiday celebrations on Friday, December 16, 2011 at 3:00pm. Art Coren, Dean, School of Business extended an invitation to Senators.

20. Adjournment

The meeting adjourned at 6:06pm.

SENATE

MEETING DATE: *January 30, 2012*

AGENDA #: *11*

PREPARED BY: *Mary Androsiuk*

Issue: Approval of new members of Senate Standing Committees

For approval: The Senate Nominating Committee recommends that Senate approve the following as members of Senate Standing Committees:

Senate Executive Committee

- Rob Mumford, Student Senator

Senate Governance Committee

- Chris Girodat, Student Senator

Senate Standing Committee on Academic Appeals

- Michela Lucas, Faculty of Humanities
- Norm Chamberlain, Faculty of Trades & Technology

Senate Standing Committee on Academic Planning & Priorities

- Jennifer Au, Faculty of Science (replacing Jane Hobson for one semester)

Senate Standing Committee on the Library

- Rob Mumford, Student Senator

Senate Standing Committee on University Budget

- Steve Dooley, Faculty of Social Sciences

Task Force on Academic Rank & Advancement

- Keith Martin, Faculty of Design

MEETING DATE: *January 30, 2012*

AGENDA #: *13*

PREPARED BY: *Dana Cserepes*

Issue: **Senate Standing Committee on Curriculum**

For Information: The Senate Standing Committee on Curriculum met on January 11, 2012

The committee approved revisions to:

- Bachelor of Design in Product Design Admission Requirements
- Bachelor of Design in Product Design Years 2, 3, & 4

**SENATE****MEETING DATE:** *January 30, 2012***AGENDA #:** *13.1***PRESENTED BY:** *Dana Cserepes*

Issue: **Program Revision: Computer Aided Design and Drafting Mechanical Specialty**

For approval: **THAT Senate approve the change to the Certificate options for the Computer Aided Design and Drafting program.**

C:

FROM: Wayne Tebb, Dean, Faculty of Trades and Technology

DATE: January 5' 2012

SUBJECT: CADD Mechanical Specialty

The following request was presented to and passed at the November 30, 2011 SSCC committee meeting. All required revisions noted at that meeting have been incorporated in the text below.

The Computer Aided Design and Drafting department is submitting a request to add a Mechanical Certificate option/stream to the existing program. This new Certificate option will incorporate and combine the most effective, existing courses from the Manufacturing and Industrial Certificate options which reflect industry skills demand. The Mechanical Certificate will replace both the existing Industrial and Manufacturing Certificates. This Mechanical stream is not a new program, however will offer students an option within the existing program streams and current credentials.

Currently the CADD Technology program offers Architectural, Structural, Industrial and Manufacturing specialties within the second semester. Enrolment in Industrial and Manufacturing have been low and we believe the cause is the lack of understanding of the terms Industrial and Manufacturing as a discipline. The CADD department often receives requests for Mechanical courses. The word 'Mechanical' is a higher level moniker which embraces content of both the Manufacturing and Industrial areas of CADD.

The Mechanical specialty will replace Industrial and Manufacturing and will be an amalgam of the most effective curriculum/training taken from the Industrial and Manufacturing specialties. Please see the attached flow charts. Due to the overlap in content between the Manufacturing and Industrial specialties, previous graduates of the Manufacturing or Industrial Certificate program will be required to complete an additional 7 credits over and above the requirements of the Mechanical option to qualify for the Mechanical Certificate credential. This is to ensure students wishing to receive an additional specialty are not in violation of Kwantlen's policy on second credentials (Policy L.5). The 7 additional credits must be outside of the course requirements of the CADD citation, the Advanced Certificate and the Diploma options. Prior approval of the courses must be obtained from the Chair of CADD and the Dean of Trades and Technology.

An agreed upon start date with the Registrar's Office is May 2012 (with applications opening in Jan 2012), with the first possible graduates of the program not prior to September 2012.

The Certificate in Manufacturing CADD, and the Certificate in Industrial CADD will still remain on the books for students who wish to challenge those Certificates through PLA only. Many students who have already completed other specialties are interested in the Mechanical stream as an additional specialty to add to their dossier. In addition we have seen interest from current CORE (first semester students) even though no official marketing of this new stream has been done.

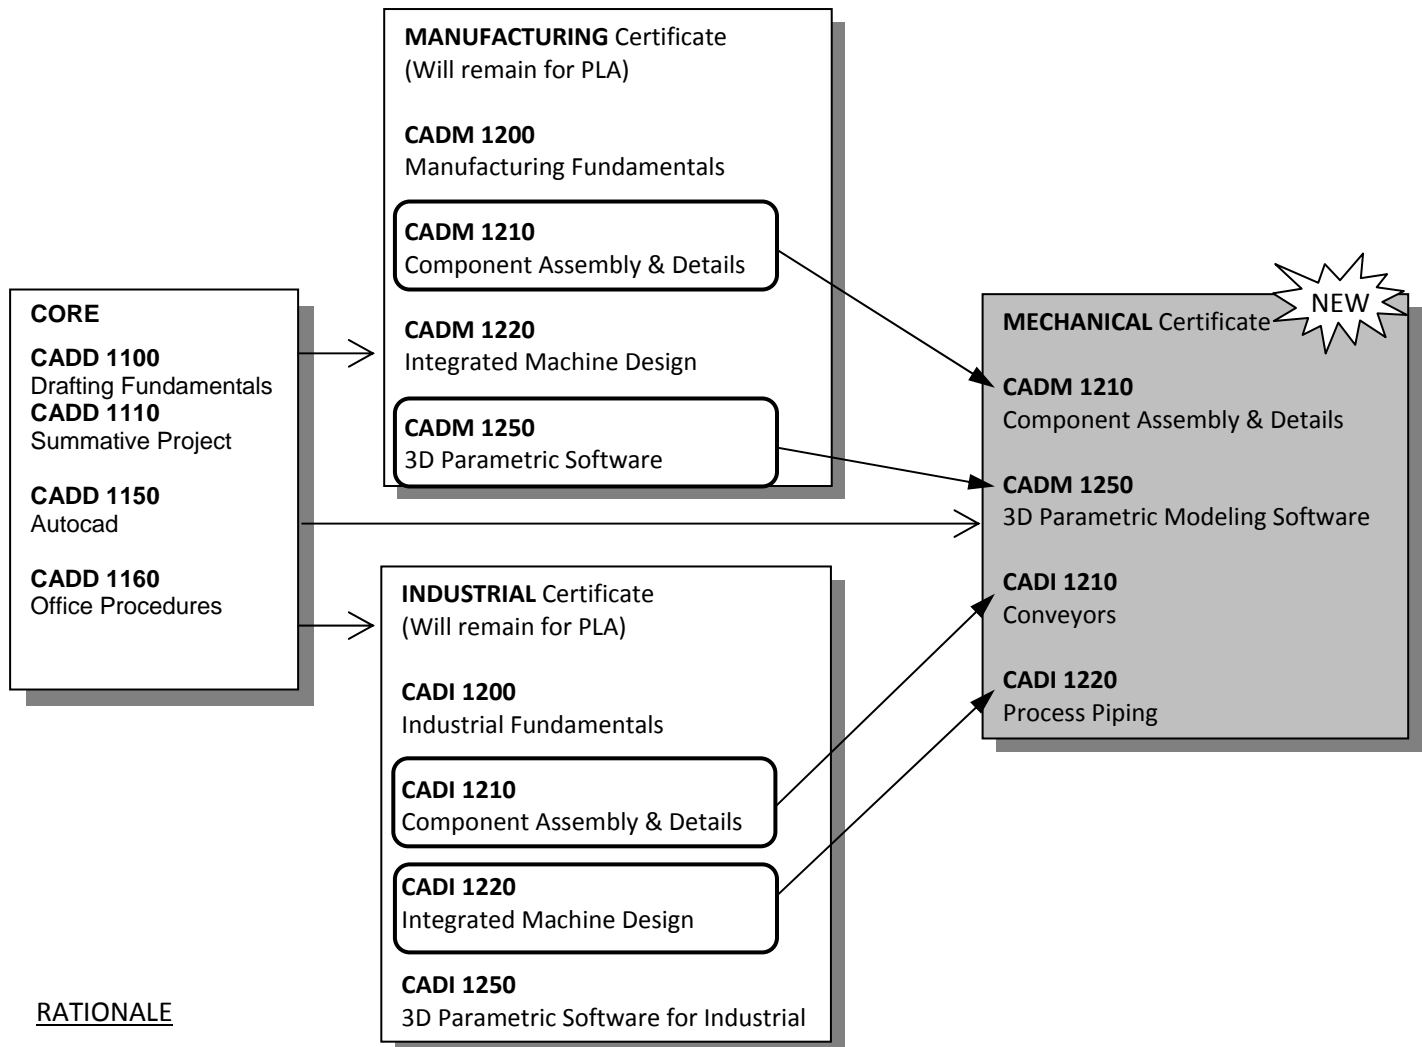

In order to meet Industry skills demand for the mega projects currently underway we must address those Industry needs and support the students' desires to enter into those fields.

Mechanical Certificate

PROPOSAL

To add a Mechanical Certificate option. This additional Certificate option will incorporate and combine the most effective courses from the Manufacturing and Industrial Certificate options. The Mechanical Certificate will replace both the existing Industrial and Manufacturing Certificates. This Mechanical stream is not a new program, however will offer students an option within our existing program streams and current credentials.

RATIONALE

The Computer Aided Design and Drafting (CADD) industry is changing rapidly due to developments in technology as well as unstable economic conditions. As a result, CADD graduates need to be able to respond to these changes by having a broader skill set.

Currently the CADD Technology Program offers Architectural, Structural, Industrial and Manufacturing specialties. The specialty courses are taken the second semester. Enrollment in Industrial and Manufacturing has been low in previous years, and we believe the cause is based on the lack of understanding of the terms Industrial and Manufacturing as a discipline. The CADD department often receives requests for Mechanical courses.

Mechanical Certificate

The word 'Mechanical' is a higher level moniker which embraces both the Manufacturing and Industrial areas of CADD. The proposed Certificate in Mechanical CADD would give students a broader skill set while still delivering the expertise required for both the Manufacturing and Industrial CADD fields. This broader skill set will increase the students' opportunities for employment.

The Certificate in Manufacturing CADD, and the Certificate in Industrial CADD will still remain on the books for students who wish to challenge those Certificates through PLA only.

BACKGROUND

The original Full Program Proposal (FPP) for the CADD Diploma program was approved by Education Council in September 2006 and implemented in September 2007. During the development of the framework and the Full Program Proposal (FPP) we took the opportunity to accomplish several goals:

1. To update the name of the program from Drafting to Computer Aided Design and Drafting (CADD)Technologies.
2. To move from a vocational teaching model and transcript to an undergraduate teaching model and transcript.
3. To develop a second year Diploma stream.
4. To offer training in several CADD Specialty areas (Architectural, Civil, Electrical, Industrial, Manufacturing and Structural).
5. To create a separate Program Advisory Committee (PAC) for each Specialty area to include what industry required for the current job market.

APPROVALS AND SUPPORT

March 18, 2011 – CADD Department (*approved*)

October 5, 2011 Faculty of Trades and Technology – Curriculum Committee (*approved*)

October 13, 2011 CADD Technologies Program Advisory Committee (*supported, please see attached support letter*)

October 21, 2011 Faculty Council – Faculty of Trades and Technology (*must be sent and vetted to AP&P for approval not CurrCom*)

November 9, 2011 Faculty of Trades and Technology – Academic Planning and Priorities Committee (*approved*)

ADMISSIONS

At this point there has only been one communication with the Office of the Registrar. Please see email excerpt below in italic. They feel that we could not accept applications for this Specialty until March of 2012, for implementation of January, 2013. However, as this is not a new Program, but only a new stream (second semester) within the current Program, that we should be able to allow students to complete a "Program Status Change" form and enter into their second semester in the Summer 2012 semester. In addition, many students who have already completed other specialties are interested in the Mechanical stream as an additional specialty to add to their dossier. The CADD department also sees interest from current CORE (first semester) students.

In addition, in order to meet the current Industry demand and current mega projects currently underway, we would not be supporting those Industry needs or aiding the students desires to enter into those fields.

Mechanical Certificate

If the application and implementation dates remain as stated from the Office of the Registrar, the CADD Technologies Program will offer the four courses that would make up the Mechanical Specialty in Summer 2012 in order to meet the increasingly demand of CADD students with the skills that are outlined in the four courses.

Email from Zena Mitchell – October 25, 2011

New programs cannot be implemented during an application cycle that is already open. The implementation date should be for a future intake that has not yet started accepting applications. The soonest this program could be launched would therefore be Spring (Jan) 2013 (which would mean we would open up applications starting March 1, 2012). For current students who complete the necessary requirements in advance of Jan 2013, we could potentially award credentials sooner (i.e. after all necessary Senate approvals are in place).

CURRENT PROGRAM

To date we have implemented:

Citation: CADD Core

Certificates: Architectural, Structural, Manufacturing and Industrial

Diploma: Advanced CADD

NEW CREDENTIAL within CADD Technologies Program

The credential will be a Certificate in Mechanical Computer Aided Design and Drafting (CADD)

Proposed Implementation Date: May 2012 (Summer 2012)

RESOURCES

Number of students: 20 students, every second year (even numbered years)

Enrollment projections are based on current demand (anecdotal).

New Courses Required:

There are no new courses required.

Mechanical Certificate

Additional Resources Required:

Faculty/FTE:

Current CADD faculty possess the skills and experience necessary to deliver the four courses.

Classrooms/Labs:

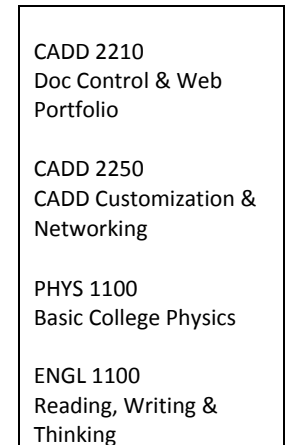

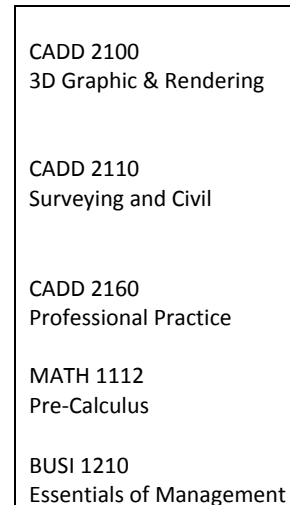

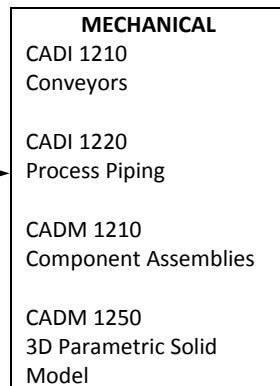

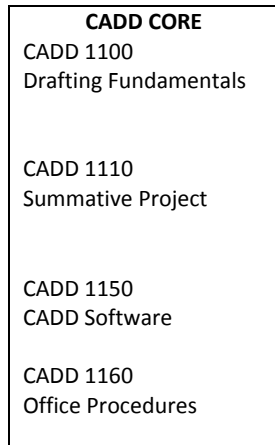

Current space allotted to the CADD program will be sufficient.

**SENATE****MEETING DATE:** *January 30, 2012***AGENDA #:** *13.2***PRESENTED BY:** *Dana Cserepes****Issue:*** Program Revision: Bachelor of Design in Product Design Admission Requirements***For approval:*** THAT Senate approve the revisions to the admissions requirements for the BA Bachelor of Design in Product Design.

MEMORANDUM

To Faculty Council and SSCC Committee
cc Sherisse Sy (Operations Manager, Faculty of Design)
From Ken Hughes (Coordinator, Product Design);
 George Verghese (Dean, Faculty of Design)
Date December 15, 2011
Subject Revision to Admission Requirements for Bachelor of Design in Product Design

Admissions Requirements

<p>RATIONALE</p>	<p>Selective Entry programs in the Faculty of Design require students to meet Kwantlen's General University requirements along with Program Admission Requirements:</p> <ol style="list-style-type: none"> 1. English 12 with a minimum grade of B (or equivalent) 2. Portfolio: Applicants are asked to select 12-15 varied examples of their work showing different aspects of their design skills and interests 3. Design Exercise and Interview (Only for applicants selected after their portfolio review) <p>The Full Program Proposal submitted in August 2010 and approved in January 2011 did not include the portfolio and design exercise and interview requirements. This amendment is designed to clarify the admissions criteria for all applicants for the Bachelors in Design in Product Design.</p>
<p>IMPLICATIONS</p>	<p>The selection of applicants for the Bachelor of Design in Product Design requires a three-step evaluation to ensure the selection of qualified candidates for the degree. Further, the program has limited-enrolment given space and resource constraints for equipment and technology.</p> <p>The Portfolio Review and Interview provides the faculty with information on the students, their design interests, ideas and educational objectives. Without the inclusion of the portfolio and interview process, the information available for the selection of applicants is incomplete.</p> <p>Design programs have an above average retention rate (90% or higher) compared to the Kwantlen institutional average of 50%. In part, their successful progression through the degree can be attributed to the selection criteria for admission to current selective-entry programs.</p>
<p>RELATED POLICIES</p>	<p>The program admission requirements for the Bachelor of Design in Product Design are modeled after existing selective-entry programs in the Faculty of Design.</p> <p>Bachelor of Design in Fashion and Technology:</p>

	<p>Program Admission Requirements¹ In addition to Kwantlen's General university admission requirements including the undergraduate-level English Proficiency Requirement, the following program admission requirements apply:</p> <ul style="list-style-type: none"> • English 12 with a minimum grade of 'B' (or equivalent) • Portfolio Review and Orientation Session* <p>Bachelor of Design in Graphic Design for Marketing Program Admission Requirements² In addition to Kwantlen's General university admission requirements, including the undergraduate-level English Proficiency Requirement, the following program admission requirements apply:</p> <ul style="list-style-type: none"> • English 12 with a minimum B (or equivalent) • Portfolio Review and Interview Session* <p>Bachelor of Interior Design Program Admission Requirements³ In addition to Kwantlen's General university admission requirements, including the undergraduate-level English Proficiency Requirement, the following program admission requirements apply:</p> <ul style="list-style-type: none"> • English 12 with a minimum B (or equivalent) • Portfolio Review and Interview Session* <p><i>* Successful applicants will receive an invitation to the required Portfolio Review and Interview session.</i></p>
