

### Calculating GPA

**Grade Point Average (GPA)** is calculated by multiplying the grade points associated with the letter grade received in a course by the number of credits assigned to that course, adding those values for all courses taken, and dividing the result by the total number of credits taken. Withdrawals are not included in the calculations. For repeated courses, only the highest grade achieved is used in the calculation.

**Term Grade Point Average (TGPA)** is the GPA calculated for all courses taken in a specific term.

**Cumulative Grade Point Average (CGPA)** is the GPA calculated over all the terms in which the student has been enrolled.

Confused? The sample calculation below will help.

#### Sample GPA Calculation

Term 1					Term 2				
Course	Letter Grade	Grade Points	Credits	Total Grade Points	Course	Letter Grade	Grade Points	Credits	Total Grade Points
ANTH 1100	B+	3.33	3	9.99	ANTH 1125	B	3.00	3	9.00
CHEM 1110	C+	2.33	4	9.32	CHEM 1210	B-	2.67	4	10.68
UNIV 1100	B-	2.67	3	8.01	ENGL 1204	A-	3.67	3	11.01
ENGL 1100	A	4.00	3	12.00	SOCI 1125	B+	3.33	3	9.99
Totals			13	39.32	Totals			13	40.68
<b>TGPA = 39.32 / 13 = 3.02</b>					<b>TGPA = 40.68 / 13 = 3.13</b>				
<b>CGPA for Terms 1 and 2 = (39.32 + 40.68) / (13 + 13) = 80 / 26 = 3.08</b>
