

Do you need your own Kwantlen Polytechnic University Alumni business card for job interviews or career networking, but don't have one yet?

Take advantage of our professional Kwantlen Alumni business card templates and have your own business cards made with these three easy steps:

1. Download the PDF business card template.
2. Print a formatting card.
3. Take (or email) the electronic template and formatting card to a printer of your choice to have your contact information—including address and email—inserted, and the business cards printed.

Please note you can only open the template file with Adobe Illustrator software. While you may not have the software installed on your computer, your printer will. All you need to do is either save the file to a disk and take it to your printer, email it to your printer, or have your printer download it directly from our site. If you have any questions, please call 604-599-3003.

Kwantlen
ALUMNI ASSOCIATION

MAILING ADDRESS
